

Dr. Sharad Gupta

Educator, Corporate Trainer, and Researcher in Human Resource Management and Organizational Behavior

Dr. Gupta is a distinguished educator with over 21 years of experience in both industry and academia, specializing in Human Resource Management (HRM) and Organizational Behavior. He brings a wealth of global knowledge and practical insights to his teaching and corporate training sessions.

His latest research explores the transformative role of Artificial Intelligence (AI) in education, focusing on how AI can enhance learning experiences, personalize education, and streamline administrative processes. His work emphasizes how AI-driven solutions can empower both educators and students by creating adaptive learning environments that cater to individual needs and preferences.

Additionally, he is at the forefront of exploring the application of Blockchain technology in managing the Employee Life Cycle. His research highlights how Blockchain can revolutionize HR processes, providing transparency, security, and efficiency in employee onboarding, performance tracking, and career development.

As a highly regarded corporate trainer, Dr. Gupta delivers workshops on Stress Management, Conflict Resolution, and Leadership Skills. His practical approach and engaging presentation style make him a sought-after speaker at professional events, where he integrates his cutting-edge research with real-world applications. His dedication to advancing the fields of HR and education has made him a thought leader, shaping the future of organizational development and management education globally.
